

AgelessLabs.ai — Project Plan v2.0

Domain: AgelessLabs.ai (primary) · AgelessLabs.com (redirect) **Tagline:** Understand what your labs reveal about how long you'll live. **Status:** Pre-launch — foundation phase

The Business

AgelessLabs.ai is a longevity-focused content site with an integrated AI biomarker interpreter tool. The content builds organic SEO traffic. The AI tool converts that traffic into revenue. Both drive affiliate income from lab testing companies.

Target audience: Health-conscious adults aged 35–65 who track biomarkers, spend on diagnostics and supplements, and are serious about longevity optimization.

Revenue streams:

- Affiliate commissions from lab testing partners (primary)
 - AI report upgrade — \$19 one-time per full longevity analysis
 - Display advertising once traffic scales (secondary, later stage)
-

The Core Product — AI Biomarker Interpreter

The centerpiece of AgelessLabs.ai. A free tool that analyzes lab results through a longevity lens, converting visitors into engaged users and driving affiliate recommendations naturally.

Free tier

- User pastes their lab results
- AI returns a longevity score (0–100), per-marker breakdown with status (optimal / monitor / concern), narrative summary, and top recommendations
- Affiliate lab testing recommendations embedded in results

Paid tier — Full Longevity Report (\$19 one-time)

- Age- and sex-adjusted optimal ranges

- Trend tracking across multiple tests
- Personalized longevity protocol
- Recommended tests to order next (with affiliate links)
- Downloadable PDF report

Tech stack

- Frontend: HTML / CSS / JS
- AI: Claude API (claude-sonnet)
- Payments: Stripe
- Hosting: Vercel (deployed via GitHub)

Current build status

A working prototype exists with full AI integration, longevity scoring, biomarker breakdown, and \$19 upgrade CTA. Needs AgelessLabs branding applied, paid tier built, and Stripe integrated.

Affiliate Partners

Company	Product	Est. Commission
InsideTracker	Blood testing + analysis platform	\$30–60 per sale
Function Health	Comprehensive lab panel	\$50–100 per sale
Ultra Lab Tests	À la carte blood tests	5–8% per order
Life Extension	Supplements + lab tests	8–12%
Marek Health	Longevity-focused lab panels	TBD

Content Strategy

SEO approach

Target high-intent mid-to-long-tail keywords around biomarker interpretation and longevity

diagnostics. This audience is already engaged with their health data — ideal for both the tool and affiliate products.

Content categories

Biomarker guides (highest affiliate intent) "What is ApoB and why it matters more than LDL", "Optimal Vitamin D levels for longevity", "How to read your HbA1c", "What homocysteine reveals about aging"

Lab test comparisons (direct affiliate conversion) "InsideTracker vs Function Health vs Ultra Lab Tests", "Best at-home blood tests for longevity", "What to test if you're over 40"

Protocol and optimization (broad traffic) "The longevity biomarkers Peter Attia tracks", "Zone 2 cardio and metabolic markers", "How sleep affects inflammatory markers"

Programmatic SEO (scale, later stage) Auto-generated pages targeting "[biomarker] optimal range for longevity" once the site has domain authority.

Build Phases

Phase 1 — Foundation (Weeks 1–4)

- Register AgelessLabs.ai and AgelessLabs.com
- Secure social handles: @agelesslabs on X, Instagram, YouTube
- Trademark check at USPTO.gov
- Set up GitHub repo and Vercel hosting
- Apply AgelessLabs branding to AI tool prototype

Phase 2 — Full Site Build (Weeks 3–6)

- Home page
- About / Mission page
- Tool page (AI Biomarker Interpreter — full version)
- Blog / content template
- Privacy policy and medical disclaimer
- Stripe payment integration for \$19 report tier

- Email capture component

Phase 3 — Content & Affiliates (Week 4 onwards)

- Apply to affiliate programs
- Publish first 3 cornerstone content pieces
- Build “Best Lab Tests for Longevity” comparison page
- Establish publishing cadence (2–4 articles per week)

Phase 4 — Traffic Growth (Month 2 onwards)

- SEO content at scale
- X and Reddit presence (r/longevity, r/biohacking, r/bloodwork)
- Email list via free report download
- YouTube: “Reading my labs with AI” content format

Revenue Projections

Milestone	Monthly Traffic	Affiliate Revenue	Tool Revenue	Total
Month 3	2,000	\$300	\$200	~\$500
Month 6	8,000	\$1,200	\$600	~\$1,800
Month 12	30,000	\$4,500	\$1,500	~\$6,000
Month 18	80,000	\$12,000	\$3,500	~\$15,500

Project Status Tracker

Item	Status
Domain — AgelessLabs.ai	To register
Domain — AgelessLabs.com	To register

Brand Direction

- **Voice:** Authoritative, clinical, aspirational — not wellness-fluffy
 - **Aesthetic:** Deep green, cream, Cormorant Garamond typography
 - **Domain:** AgelessLabs.ai
 - **TLD rationale:** .ai signals the tool is AI-powered; resonates with the tech-forward longevity audience
-

How to Resume Development with Claude

1. Open a new conversation inside the AgelessLabs Claude Project
2. Upload the file you want to work on
3. Use this prompt:

"I'm building AgelessLabs.ai — a longevity content site with an AI biomarker interpreter tool monetized through lab testing affiliates and a \$19 paid report. You are my developer.

Here are the current project files. Please review and let's continue building."

AgelessLabs.ai — Project Plan v2.0
